

PRESS RELEASE

ACUSTRIP Company, Inc
Sept. 2018

ACUSTRIP Announces Launch of New Web Site

In a continued effort to meet customers' needs, ACUSTRIP Company, Inc. has released a new mobile friendly website with easy to navigate choices. The site has been optimized to provide an enhanced user experience regardless of whether the user's device is a smart phone, tablet or desktop. As has come to be expected, the new site remains a valuable resource for wholesalers, fleet managers and end-users by providing product specifications and instructions, safety data sheets and other materials. Easy online ordering through our secure server is also available.

About Acustrip

Founded in 1987, Acustrip Company has a well-deserved reputation as the manufacturer and provider of America's best coolant test strips. Acustrip manufactures diagnostic test strips for brake, fuel, power steering, water quality, mold/bacteria and DEF. Acustrip currently manufactures products for OEM distribution that have been approved by major auto and equipment manufacturers. The Acustrip name is renowned worldwide for the quality dip and read diagnostics that provides convenience and accuracy for on site evaluation of fluids. Acustrip has become the choice source of test strips by fleet managers DIYers professional service providers, and major service centers and labs around the world.
